GRAIN HANDLING ACCESSORY CATALOG

DESIGN | INNOVATE | PERFORM

800-288-1117

DEAR CUSTOMER,

Since 1985 Agri-Products Inc. has developed and improved our designs and accessories required for material handling. API is a three-generation family-owned company. A foundation of agricultural manufacturing experience dating back to the mid-1960's with the ownership of York Foundry & Engine Works.

The process for creating exceptional material handling components can be manufactured using mild steel, stainless steel and galvanized steel. Sawing is executed with a Marvel CNC saw. Sheet and plate fabrication is accomplished using a Hypertherm CNC Plasma torch, Cincinnati shear, AccurPress CNC brake and MG hydraulic roller. API's unmatched welded components are completed using Miller Welding equipment.

Components are finished with API's standard gray paint or hot-dipped galvanizing. Other finishes available upon request.

Our greatest asset is the skill and experience of our designers and production team. Years of working together has developed our abilities far beyond the industry standard. Our staff brings years of knowledge in agriculture, food processing, and grain handling. Offering extensive experience combined with our substantial record of success assures you a quality product at a competitive price.

This catalog is a preview of our basic products available. We also design and manufacture bucket elevators, belt conveyors, drag conveyors, and screw conveyors. API provides almost anything needed to convey and elevate free-flowing material.

THANK YOU FOR CONSIDERING
AGRI-PRODUCTS AS A SOURCE
FOR MATERIAL HANDLING

Give us a call at **800-288-1117**

We look forward to being a reliable source for all your grain handling needs.

Kevin Bonin

WARRANTY STATEMENT

Agri-Products, Inc.'s goal is to supply all our customers with the best product possible.

Our warranty promises to repair or replace, at Agri-Products, Inc. discretion, any product that is defective in material or workmanship for a period of one year from the date of purchase. The original purchaser must also maintain ownership of the product.

OMISSION TO THIS WARRANTY IS AS FOLLOWS BUT NOT LIMITED TO:

- Normal wear and tear
- Product negligence – Agri-Products, Inc. is not responsible for improper installation or misuse of the product.
- Any alterations to the product that were not approved by Agri-Products, Inc.
- Components not manufactured by Agri-Products, Inc. will carry only the warranty that is stated by its' manufacturer. Agri-Products, Inc. will have no responsibility with regard to warranty claims beyond that of the manufacturer's warranty statement.

WARRANTY PROCEDURES

- If a defect in the product has been discovered, the original purchaser must contact Agri-Products, Inc.
- If necessary, a picture will be sent to Agri-Products, Inc. to inspect the defective product.
- Prior to any warranty work or replacement of part(s), approval from Agri-Products, Inc. is determined. Only Agri-Products, Inc. can approve a warranty claim.
- The warranty will cover material and labor for the claim and is FOB York, Nebraska. Any transportation charges will be assumed by the dealer or user.

CONDITIONS: All prices FOB York or factory unless quoted otherwise

Prices are subject to change without notice.

Any quotations given, written or oral, are good for 15 days
